Skills

- **Languages**: Python, JavaScript, C, HTML5
- **Frameworks**: Next.js, Tailwind CSS
- **Tools/Platforms**: MySQL, Git
- **Soft Skills**: Problem-Solving, Team Management, Time Management, Adaptability

Internship

Sucantis Biotech Pvt. Ltd. | Link Jun' 25 – Jul' 25
UI / UX Intern

- Achieved hands-on industry exposure to understand real-world UI/UX design workflows and standards.
- Completed industrial training involving wireframing, interface design, usability practices, and assigned design tasks.
- Developed practical UI/UX skills, improved design thinking, and demonstrated strong professional work ethic.

Tech Used: Figma, Adobe XD, HTML, CSS, JavaScript, UI/UX Prototyping, Wireframing and User Research.

Threat Prism | Link Mar' 24 – Apr' 24
Cyber Security Intern

- Gained practical exposure to real-world cyber security and ethical hacking practices.
- Accomplished an internship covering ethical hacking fundamentals, security concepts, and hands-on cyber security activities.
- Advance foundational cyber security skills and demonstrated dedication, diligence, and professional discipline.

Tech Used: Kali Linux, Wireshark, Metasploit, Burp Suite, Nmap, Python, Network Security and Vulnerability Assessment.

Projects

Calyx - An Earth Observation Application for Global Flowering Phenology | Link Oct' 25

- Achieved an interactive web application for detecting plant phenology states to support botanical studies and field data analysis.
- Developed core features including map, machine learning inference, and state prediction using computer vision/model integration.
- Delivered a functional and user-friendly tool that enables accurate phenology classification and facilitates research insights.

Tech: Next.js, TypeScript, JavaScript, Python, Jupyter Notebook, Machine Learning and Docker

UrbanSwap - AI-Powered Marketplace Assistant for Local Artisans | Link Oct' 25

- Created an AI-driven marketplace assistant to streamline user discovery and recommendation of AI tools and services.
- Matured core functionality including intelligent search, context-aware suggestions, and responsive UI with backend integration.
- Provided a user-friendly assistant that enhances tool exploration and improves user engagement across AI offerings.

Tech: React.js, Flask, Google Cloud Run, Dialogflow, Vertex AI, Python and HTML/CSS

Certificates

- Cybersecurity Analyst Job Simulation | Tata | Link Sep' 25
- Assets, Threats, and Vulnerabilities | Google | Link Jun' 24
- Software Engineering Job Simulation| JPMorgan Chase & Co. | Link Dec' 23

Achievements

- **Awarded Global Honorable Mention at NASA Space Apps Challenge 2025** Nov' 25
  Selected as one of the top 23 teams globally from 11,500+ projects in the NASA Space Apps Challenge 2025.
- **Ranked among the Top 100 teams (India) in Innov-a-thon 2025** Nov' 25
  Participated in the Hackathon organized by NIT Rourkela.

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.02*** Apr' 23 – *Present*
- **Shri Aurobindo Public School** Baddi, Himachal Pradesh
  Intermediate; ***Percentage: 80*** Apr' 22 – Mar' 23
- **Amenity Public School** Rudrapur, Uttarakhand
  Matriculation; ***Percentage: 89*** Apr' 20 – Mar' 21
